Working with architects and builders to forge a better industry for all

Wall Framing - Never used prefabricated walls???

Benefits include;

(i) Cost effectiveness

Prefabricated timber wall frames are manufactured off-site in a factory environment using state of the art software and manufacturing equipment, and are delivered to site ready to install with clear installation instructions. **The reduced on-site erection times lead to significantly reduced labour costs.**

Prefab frames can also reduce the effect of wet weather delays.

Frames are individually detailed and engineered which **optimises the timber components** to suit the design loads applied to them.

Manufacturing of frames optimises timber stock, leading to **minimisation of timber waste** versus the on-site stick built alternative.

(ii) Piece of mind for building authorities and certifying engineers

As part of a fully engineered system, **Able Truss** will ensure that the critical studs, wall plates, lintels and various tie downs and restraints are designed to support the roof and upper storey loads. More importantly, the 'right hand is guaranteed to be talking to the left hand' with Able Truss overseeing the design and manufacturing of the entire system.

(iii) Versatility of timber during construction

Timber is a material that all builders are familiar with and comfortable using. This provides for flexibility on site when foundation errors exist or last minute changes are required.

(iv) One-stop-shop solution

Able Truss can provide builders with their complete roof and wall framing requirements as part of a fully engineered system including lintels and beams.

Recent Projects

Able Truss recently completed a demanding, high specification multi unit project for Western Developments in Balwyn North.

On a sloping block with curved rooves and multiple levels, Able Truss worked hand in hand with the customer to complete this noteworthy project.

We have extensive experience in similar developments – call us if we can help you in any way!

Guaranteed quality, Personalized service

Proud supporters of the YMCA's Bridge project – providing hope, inspiring dreams for our youth
